Thanks. A quick look suggests to me that you and Brock did a great job of capturing the discussions. I will let you know how "my guys" respond. They should be pleased.

Subject: Final Workshop Summary (technical workshop on estuarine habitat) 27 March 2012
Importance: High

Hello Friends:

Please find attached the final Workshop Summary from the all-day technical session held last March. We consolidated as much information as possible into this document so it could serve as a stand-alone reference.

Separately, we're posting closely related materials at EPA's Watershed Activities webpage:

(www.epa.gov/sfbaydelta/activities.html).

Once the materials are posted, you'll be able to access them by scrolling down to the section entitled, "Sacramento-San Joaquin River Delta", and then by clicking on the link to the "Delta Water Quality Standards."

Thanks so much for your wisdom, enthusiasm, and professional dedication.

You made the workshop a success, and we'll do everything possible to ensure your investment was worthwhile.

Best Regards, Tim
